

THOMSON REUTERS

# THOMSON INNOVATION® PATENT COVERAGE

THE WORLD'S MOST COMPREHENSIVE COLLECTION OF PATENT DATA

Thomson Innovation has the world's most comprehensive collection of patent data, from major patent authorities, specific nations and proprietary sources exclusive to Thomson Reuters. Never before and nowhere else are you able to search these patent collections in one seamless, easy, integrated interface.

The translation capabilities of Thomson Innovation can enhance your productivity, save you money and improve the quality of your research. Our 'translations on demand' feature lets you immediately translate search results into many major world languages, making it faster and easier to determine the relevancy of a patent. And, our English-language coverage of the Asia-Pacific region is unmatched.
